Discovery Education *streaming*
Quick Start Guide

Find What You Need with Search Tools

Use a variety of dynamic search tools to quickly locate video segments, images, encyclopedia articles, audio files, events, lesson plans, clip art, and more.

Keyword Search

Conduct targeted searches for full videos, video segments, images, articles and clip art. Search results will return video titles and descriptions that contain the keyword you entered. You can include and exclude words or phrases—for example: revolution NOT industrial. Use quotation marks to search for a phrase—for example: "black holes"—to constrain your search to media that includes the entire phrase in the title or description.
Advanced Search

Focus on a specific publisher or limit your search to include only Editable, Closed-Captioned, Spanish-language or New Titles. You can also choose to exclude Spanish-language or Classic titles from your search results. Click on "Explore All Titles" to browse the entire video collection and select subject areas of interest to you.

Subject Search

Click on core subject areas to view a complete listing of media resources that match the subjects that you teach. Refine your subject search by choosing a more specific subject or grade range.

Grade Search

Select a grade range to view a complete listing of Discovery Education *streaming* content appropriate for your students. Filter your search results more precisely and choose from core subjects or sort by different media types.

Curriculum Standards

Video clips in the Discovery Education *streaming* library have been cross-referenced to teaching standards for all states. Use this tool to quickly locate videos that match your state curriculum standards.

Narrow My Results

By Media Type
