- 7. If you have a new student that does not have an answer sheet, you can print a second copy of one of the answer sheets by using the File>Print window (*adjust page range*).
- 8. Write the new students' name on the answer document and tear off the bottom of the page so that it will not accidentally be scanned in for the existing student. This CBA will need to be hand-graded.

9. To see your students' results, look under "My Students and Classes" on the left side of your screen. Expand the folders out by clicking the + sign. Click once on the CBA. You should see results in the main part of your screen.

 There are several list views available in Eduphoria! (District Summary, School Summary, Class Summary, or Individual Student Data). Use the small icons in the upper right corner of your window to toggle between these views.

Anytime you need to go back or forward in a screen in Eduphoria!, look for the *green arrows*. Do not use your Internet Explorer back buttons.

The **Help** feature in Eduphoria! is very "helpful". It includes video demonstrations of most basic skills that teachers will need to know.

To return to the main Eduphoria! Aware screen, click the Switch Applications button and choose **SchoolObjects:aware.**
