

The Family Engagement Plan for EMS ISD Early Childhood Programs outlines the shared commitment between educators and families to create a supportive learning environment. Together we strive to enhance the educational experience, fostering a culture of excellence that instills a passion for a lifetime of continuous improvement in every child.

As defined by the state:	<p>Family- -Adults responsible for the child's care and children in the child's life who support the early learning and development of the child</p> <p>Family engagement--The mutual responsibility of families, schools, and communities to build relationships to support student learning and achievement and to support family well-being and the continuous learning and development of children, families, and educators. Family engagement is fully integrated in the child's educational experience and supports the whole child and is both culturally responsive and linguistically appropriate.</p>
