

Pre-Assessment Activity (PAA)

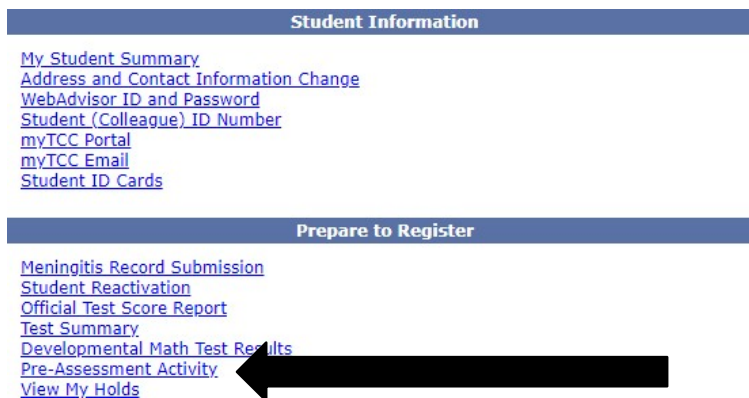

The Pre-Assessment Activity (PAA) is required to be viewed by students prior to completing the TSI assessment. TCC is requiring students view the PAA through their WebAdvisor account. **If you do not complete this step, you will not TSI test on your home campus when offered.**

To view the Pre-Assessment Activity (PAA) follow the steps below.

1. Login to your TCC WebAdvisor account (<https://waj.tccd.edu>) and click the STUDENTS menu.

2. Scroll down the page until you find the tab labeled "Pre-Assessment Activity." Click the link.

3. You must follow the prompts to view the PAA in its entirety. Once you complete the PAA, you will receive an email from Querium with your PAA certificate. Save this certificate and email the certificate to mcordova@ems-isd.net.

Students that do not complete this requirement cannot take the TSI. You will not be scheduled for the testing that will take place on the high school campus. You will have to test on your own time at the TCC NW Campus Testing Center. You will have to view the PAA in WebAdvisor before testing at TCC.
