

# EMS ISD Office 365 Opt-Out Form

Eagle Mountain Saginaw ISD and Microsoft have teamed together to provide students free Office 365 accounts. This suite of online tools allow students to create, collaborate, and communicate in a secure online environment. Implementation of EMS ISD student Office 365 accounts in the classroom is a teacher decision, but the *EMS ISD Office 365 Opt-Out Form* offers parents/guardians the option to opt-out of the use of such tools for their children if they do not want them to participate in a cloud-based environment. For further information visit [www.emsisd.com/office365](http://www.emsisd.com/office365).

Please complete, sign, and return the bottom portion of this form only if you DO NOT want your student to have access to their Office 365 account.
