PERSONAL EDUCATION PLAN

Dear Prospective Student:

As part of the application process for Watson High School, we ask you to complete this Personal Education Plan. Consider the questions carefully and answer them truthfully, sincerely, and completely. One-word or one-sentence answers are not acceptable. Some of the items may need discussion with your parent/guardian before you are able to formulate a complete answer.

1. What is one thing that caused you to either fail courses at your present high school or lose credit for courses you successfully completed?

2. Considering the answer to question one, exactly what are you going to do differently to prevent this same pattern from repeating itself at WHS?

3. A. How many credits do you now have on your transcript? _____

B. What diploma do you want to earn? Foundation or Foundation with Endorsement

C. When do you plan to graduate from high school? _____

D. In order to meet this goal for graduation, how many credits do you plan to complete this year? _____

4. The average number of credits completed by students in one year at Watson is 8-12 credits. Some students complete more credits, but many students complete less. Considering your goal in question 3, is this realistic? What kind of effort can we expect from you this year?

5. Why is your present high school not the best place for you to remain and graduate?

6. Students at Watson High School must be self-motivated and self-directed. What do these adjectives mean to you? How do these words apply to you?
