Independent Auditor's Report

Eagle Mountain-Saginaw Independent School District
Fort Worth, Texas

Opinion

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Eagle Mountain-Saginaw Independent School District as of and for the year ended August 31, 2024 and the related notes to the financial statements, which collectively comprise Eagle Mountain-Saginaw Independent School District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Eagle Mountain-Saginaw Independent School District as of August 31, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financials section of our report. We are required to be independent of Eagle Mountain-Saginaw Independent School District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Eagle Mountain-Saginaw Independent School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Eagle Mountain-Saginaw Independent School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Eagle Mountain-Saginaw Independent School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters we identified in the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 7 through 14 and the Teacher Retirement System schedules on pages 66 through 74 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Eagle Mountain-Saginaw Independent School District's basic financial statements. The combining and individual nonmajor fund financial statements, the required TEA schedules listed in the table of contents, and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the required TEA schedules, and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 6, 2025 on our consideration of Eagle Mountain-Saginaw Independent School District's internal control over financial reporting and on our tests of the compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Eagle Mountain-Saginaw Independent School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Eagle Mountain-Saginaw Independent School District's internal control over financial reporting and compliance.

**EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED AUGUST 31, 2024
(UNAUDITED)**

As management of Eagle Mountain-Saginaw Independent School District, we offer readers of the District's financial statement this narrative overview and analysis of the financial activities of the District for the year ended August 31, 2024. Please read this narrative in conjunction with the independent auditors' report on page 5, and the District's Basic Financial Statements that begin on page 17.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of Eagle Mountain-Saginaw Independent School District exceeded its liabilities and deferred inflows at the close of the most recent fiscal period by \$18,549,152.
- The District's total net position increased by \$35,809,409 during the fiscal year from the result of current year operations.
- As of the close of the current fiscal period, the District's governmental funds reported combined ending fund balances of \$335,255,210. Over 16% of this total amount (\$55,581,236) is unassigned and available for use within the District's commitments and policies.
- At the end of the current fiscal period, the unassigned fund balance of the general fund of \$57,873,295 was 23.31% of the total general fund expenditures.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. The government-wide financial statements include the Statement of Net Position and the Statement of Activities (on pages 17 through 19). These provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements (starting on page 20) report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. For proprietary activities, fund financial statements tell how goods or services of the District were sold to departments within the District or to external customers and how the sales revenues covered the expenses of the goods or services. The remaining statements, fiduciary statements, provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the District. The District has no component units for which it is financially accountable.

The notes to the financial statements (starting on page 33) provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining statements for nonmajor funds contain even more information about the District's individual funds. The section labeled Federal Awards Section contains data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the District's overall financial condition and operations begins on page 17. Its primary purpose is to show whether the financial position of the District is improving or deteriorating as a result of the year's activities. The Statement of Net Position includes all the District's assets, deferred outflows, deferred inflows and liabilities at the end of the year while the Statement of Activities includes all revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting (the basis used by private sector companies).

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the district and grants provided by the U.S. Department of Education to assist children with disabilities or from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's net position and changes in it. The District's net position (the difference between assets, deferred outflows, deferred inflows and liabilities) provides one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider nonfinancial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

In the Statement of Net Position and the Statement of Activities, we divide the District into two kinds of activities:

- **Governmental activities**—Most of the District's basic services are reported here, including the instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.
- **Business-type activities**—The District charges a fee to “customers” to help it cover all or most of the cost of services it provides in the childcare services program.

Reporting the District's Most Significant Funds

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives.

The fund financial statements begin on page 20 and provide detailed information about the most significant funds—not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received under the No Child Left Behind Act from the U.S. Department of Education. The District's administration establishes many other funds to help it control and manage money for particular purposes (like campus activities).

All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- Governmental funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*. The District maintains twenty-four governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund, capital projects fund and food service fund, each of which are considered to be major funds. Data from the other twenty governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report. The District adopts an annual appropriated budget for its general fund, debt service fund and food service fund. A budgetary comparison schedule has been provided to demonstrate compliance with these budgets. The basic governmental fund financial statements can be found on pages 20 through 27 of this report.
- Proprietary funds.** The District reports the activities for which it charges users (whether outside customers or other units of the District) in proprietary funds using the same accounting methods employed in the Statement of Net Position and the Statement of Activities. In fact, the District's enterprise funds (one category of proprietary funds) are the business-type activities reported in the government-wide statements but containing more detail and additional information, such as cash flows. The District uses an enterprise fund to account for its childcare activities. The internal service funds (the other category of proprietary funds) report activities that provide supplies and services for the District's other programs and activities. The District has no internal service funds.
- Fiduciary funds.** *Fiduciary funds* are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the District's own programs. The District is the custodian, or *fiduciary*, for these funds and is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of custodial net position and a separate statement of changes in custodial fund net position that can be found on pages 31 and 32. These activities are excluded from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following analysis presents both current and prior year data and discuss significant changes in the accounts. Our analysis focuses on the net position (Table I) and changes in net position (Table II) of the District's governmental and business-type activities.

The District's total net position increased by \$35,809,409 during the fiscal year from the result of current year operations. Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – was a \$46,983,811 deficit at August 31, 2024. The increase of \$35,809,409 in governmental activities net position from current operations was the result of several factors. First, the District's revenues exceeded expenditures by \$62,769,687 (as adjusted for the effects of capital outlay and debt service principal payments.) However, the District recorded depreciation expense, which is a non-cash expense that reduces the value of District assets, in the amount of \$27,797,951. In addition, various adjustments totaling \$837,673 were posted to revenues and expenses to account for prepaid expenses, interest accruals and tax revenues earned during the period under the full accrual method of accounting.

The cost of all governmental activities for the current fiscal period was \$339,824,689. However, as shown in the Statement of Activities on pages 18 and 19, the amount that our taxpayers ultimately financed for these activities through District taxes was only \$181,901,753 because some of the costs were paid by those who directly benefited from the programs (\$8,592,830) or State funding (\$117,795,172).

THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements, bond covenants, and segregation for particular purposes.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$335,255,210 an increase of \$50,015,337 from the previous year. Approximately 22% of this total amount (\$72,843,654) constitutes *committed, assigned* and *unassigned fund balance*. The remainder of fund balance is *nonspendable* or *restricted* to indicate that it is not available for new spending because it is already restricted to pay debt service (\$28,823,187) or for capital projects (\$221,891,374) or for food service (\$4,743,555), or already spent on inventories (\$451,125) or prepaid items (\$6,502,315).

The general fund is the primary operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$57,873,295, while the total fund balance was \$77,840,968. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to the total fund expenditures. Unassigned fund balance represents 23.31% of the total general fund expenditures, while the total fund balance represents 31.36% of that same amount.

The fund balance of the District's general fund increased by \$4,605,164 during the current fiscal year compared to a \$1,660,742 increase in the prior year. Key factors related to this change are as follows:

- The District realized \$22,360,725 less property tax revenue but \$39,433,537 more State funding in the current year compared to the prior year. The additional State funding was provided to offset the reduction in property tax rate caused by the compression in the tax rate. However, these additional revenues were offset by an increase in total expenditures of \$11,410,687 or 4.82%, primarily in the areas of instructional costs and facilities maintenance and operations costs.

The debt service fund has a total fund balance of \$28,823,187, all of which is reserved for the payment of debt service. The net increase in fund balance during the period in the debt service fund was \$11,840,941, of which \$6,445,000 of the increase was the result of a prior period adjustment. Property tax revenue increased \$2,361,144 over the prior year, while debt service expenditures increased \$8,625,860. State EDA revenue increased \$6,780,021 primarily due to an increase in the allowed homestead exemption.

Other changes in fund balances should also be noted. The fund balance in the capital projects fund increased by \$40,550,308, due primarily to \$150,000,000 proceeds from the issuance of school building bonds offset by \$118,680,709 spent on construction-related costs during the year. Although capital expenditures reduce available fund balances, they create new assets for the District as reported in the Statement of Net Position and discussed in Note 4 to the financial statements.

Over the course of the year, the Board of Trustees revised the District's budget at times. These budget amendments fall into three categories. The first category includes amendments and supplemental appropriations that reflect the actual beginning balances (versus the amounts we estimated in August, 2023). The second category includes changes that the Board made during the year to reflect new information regarding revenue sources and expenditure needs. Principal amendments in this category were amendments to reflect an increase in the anticipated amount of State funding to be received and changes in tax collections. The third category involves amendments moving funds from programs that did not need all the resources originally appropriated to them to programs with resource needs.

The District's General Fund balance of \$77,840,968 reported on page 20 differs from the General Fund's budgetary fund balance of \$71,438,311 reported in the budgetary comparison schedule on page 27. This is principally due to cost savings in most functional expenditure categories.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At August 31, 2024, the District had \$1,061,615,999 (net of accumulated depreciation) invested in a broad range of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance. This amount represents a net increase of \$97,493,643, or 10.11%, above last year.

This fiscal year's major additions included:

Continuing construction costs on a new high school	\$85,591,841
Continuing construction costs on a new middle school	4,727,162
HVAC upgrades	7,986,132
Cafeteria equipment	1,814,356
Police department vehicles and equipment	827,383
Totaling	<u>\$100,947,074</u>

More detailed information about the District's capital assets is presented in Note 4 to the financial statements.

Debt Administration

At year-end, the District had \$1,289,754,123 in long-term debt (outstanding bonds plus accreted interest and premiums/discounts on bonds, and right-to-use leases and subscriptions) versus \$1,177,988,609 last year—an increase of \$111,765,514 or 9.49%. \$145,380,000 par value in new school building bonds were issued during the current fiscal period, in addition to the remarketing of a prior year bond issuance. The District's underlying rating for unlimited tax bonds is "AA-" by S&P and Fitch and "Aa2" by Moody's but is considered AAA as a result of guarantees of the Texas Permanent School Fund.

More detailed information about the District's long-term liabilities is presented in Note 5 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The 2023-2024 fiscal year focused on budgeting to meet the needs of a growing district in a competitive employment area while maintaining targeted fund balance levels. Currently, the District has been able to meet and maintain the 90-day fund balance level for six consecutive years. Past and potential future challenges to meeting this requirement have included the acceleration of enrollment and the need to open new schools to accommodate this growth along with limited increases in the state funding formula compared to the rate of inflation. To weather the lack of changes to the school finance formula during the 2024-2025 legislative biennium, the District strategically reduced existing expenditures and also adopted a 2024-2025 operating budget using \$15.7 million from reserves to maintain programs and remain competitive in the labor market until the 2026-2027 biennium as appropriate funding was available in the state appropriations. Also, for the 2024-2025 school year, the District constructed and opened its fourth traditional high school. Citizens passed a \$561.1 million bond referendum in November 2023 to support future growth, replacement, and capital maintenance of facilities which allows the District to best use its operational funding to meet its mission in student excellence.

In the 2019 legislative session, the school finance system was replaced by a new system – referred to as "HB3". The new system provides for local property tax relief based on local property value growth in comparison to the state average. As such the District was able to reduce the overall tax rate by \$0.0015 for the 2024-2025 school year for a total of decrease of \$0.2943 since HB3's inception. New home construction continues to contribute to a strong, stable local property tax base to support the District's finances with the applied 2024 tax rate of \$1.2457 per \$100 taxable valuation.

The District continues to experience the impact of new charter schools in the area; although the impact is mild compared to the impact experienced in prior years. While charter schools will continue to present potential challenges, the District works to minimize the impact created by the fluctuations in enrollment caused by the operation of charter schools.

For the 2024-2025 budget and beyond, the District is addressing the continued student needs brought forth by the COVID-19 pandemic and continues to position itself to 1) accommodate growth, 2) provide quality instruction and options for our students, and 3) be competitive in the labor market for needed employees. The District will balance these objectives with maintaining fund balance levels and the current AA- rating for the issuance of future debt.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for funds the District receives. If you have questions about this report or need additional financial information, contact the District's business office, at Eagle Mountain-Saginaw Independent School District, 1600 Mustang Rock Road, Fort Worth, Texas 76179, (817) 232-0880.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
STATEMENT OF NET POSITION
AUGUST 31, 2024

EXHIBIT C-2

Total Fund Balances - Governmental Funds	\$ 335,255,210
1 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental fund financial statements.	1,396,688,860
2 Accumulated depreciation has not been included in the governmental fund financial statements.	(335,072,861)
3 Bonds payable have not been included in the governmental fund financial statements.	(1,162,925,000)
4 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68 in the amount of \$90,010,706, a Deferred Resource Inflow related to TRS in the amount of \$4,008,982 and a Deferred Resource Outflow related to TRS in the amount of \$39,762,166. This amounted to a decrease in Net Position in the amount of \$54,257,522.	(54,257,522)
5 Included in the items related to debt is the recognition of the District's proportionate share of the net Other Post-Employment Benefit (OPEB) liability required by GASB 75 in the amount of \$36,842,275, a Deferred Resource Inflow related to TRS OPEB in the amount of \$53,555,297, and a Deferred Resource Outflow related to TRS OPEB in the amount of \$20,343,272. This amounted to a net decrease in Net Position in the amount of \$70,054,300.	(70,054,300)
6 Right-to-use lease liabilities have not been included in the fund financial statements.	(3,546,474)
7 Right-to-own subscription liabilities have not been included in the fund financial statements.	(3,456,377)
8 Accreted interest for capital appreciation bonds have not been included in the governmental fund financial statements.	(1,394,364)
9 Unavailable revenue on property taxes in the fund financial statements was recorded as revenue in the district-wide financial statements.	2,505,517
10 Interest is accrued on outstanding debt in the district-wide financial statements, whereas in the fund financial statements, an interest expenditure is reported when due.	(2,529,058)
11 Loss on the refunding of bonds reported as net other financing uses on the fund financial statements is deferred in the district-wide financial statements.	34,862,481
12 Premium on the issuance of bonds reported as net other financing sources on the fund financial statements is capitalized in the district-wide financial statements.	(118,431,908)
29 Net Position of Governmental Activities	\$ 17,644,204

The notes to the financial statements are an integral part of this statement.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED AUGUST 31, 2024

EXHIBIT C-4

Total Net Change in Fund Balances - Governmental Funds	\$ 50,015,337
Current year capital outlays are expenditures in the governmental fund financial statements, but are shown as increase in capital assets in the government-wide financial statements.	125,303,420
Depreciation is not recognized as an expense in the governmental funds since it does not require the use of current financial resources.	(27,797,951)
Current year long-term debt principal payments on contractual obligations are expenditures in the governmental fund financial statements, but are shown as reductions in long-term debt in the district-wide financial statements.	86,295,028
Current year decrease in the accretion on capital appreciation bonds is not reflected in the governmental fund financial statements, but is shown as decreases in accreted interest on the government-wide financial statements.	612,938
Interest is accrued on outstanding debt in the district-wide financial statements, whereas in the governmental fund financial statements an interest expenditure is reported when due. This amount represents the current year change in accrued interest.	(759,846)
Current year amortization of the premium/discount on bonds payable is not recorded in the fund financial statements, but is shown as a reduction in long-term debt in the government-wide financial statements.	6,662,751
Amortization of deferred loss on bond refunding is not recognized in the governmental funds. The effect of recording current year amortization is to decrease net assets.	(2,653,266)
Current year right-to-use lease proceeds are recorded as an other resource in the fund financial statements, but are shown as increases in long-term debt in the government-wide financial statements.	(578,179)
Current year right-to-use subscription liabilities are recorded as an other resource in the fund financial statements, but are shown as increases in long-term debt in the government-wide financial statements.	(2,812,587)
Proceeds from bond sales are recorded as other resources in the fund financial statements but are shown as an increase in long-term debt in the government-wide financial statements.	(188,975,000)
Premium received on bond sales are recorded as other resources in the fund financial statements but are shown as an increase in long-term debt in the government-wide financial statements.	(6,536,901)
Basis of SBITAs retired are not recorded in the fund financial statements but are reductions of capital assets and long-term debt in the government-wide financial statements.	(390)
Revenue from property taxes is shown as unavailable in the governmental fund financial statements until they are considered available to finance current expenditures, but such revenues are recognized when assessed net of an allowance for uncollectible accounts in the government-wide financial statements. This amount represents the current year change in unavailable property taxes.	(8,068)
The implementation of GASB 68 required that certain expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of 8/31/2023 caused the change in the ending net position to increase in the amount of \$7,539,184. Contributions were replaced with the District's pension expense for the year of \$17,170,880, which caused a decrease in the change in net position. The impact of all of these is to decrease net position by \$9,631,696.	(9,631,696)
The implementation of GASB 75 required that certain expenditures be de-expended and recorded as deferred resource outflows. TRS OPEB contributions made after the measurement date of 8/31/2023 but during the current fiscal year caused the ending net position to increase in the amount of \$1,534,763. These contributions were replaced with the District's OPEB expense for the year, which was \$(5,033,696) and also caused an increase in net position. The impact of both of these is to increase net position by \$6,568,459.	6,568,459
Change in Net Position of Governmental Activities	\$ 35,704,049

The notes to the financial statements are an integral part of this statement.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Eagle Mountain-Saginaw Independent School District (the "District") is a public educational agency operating under the applicable rules and regulations of the State of Texas. The District's combined financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units in conjunction with the Texas Education Agency's (TEA) Financial Accountability System Resource Guide (FAR). The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

A. REPORTING ENTITY

The Board of Trustees, a seven member group elected by registered voters of the District, has fiscal accountability over all activities related to public elementary and secondary education within the jurisdiction of the District. The board of trustees are elected by the public. The trustees as a body corporate have the exclusive power and duty to govern and oversee the management of the public schools of the district. All powers and duties not specifically delegated by statute to the Texas Education Agency (Agency) or to the State Board of Education are reserved for the trustees, and the Agency may not substitute its judgment for the lawful exercise of those powers and duties by the trustees. The District is not included in any other governmental "reporting entity" as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards.

The District's basis financial statements include the accounts of all District operations. The criteria for including organizations as component units within the District's reporting entity, as set forth in Section 2100 of GASB's Codification of Governmental Accounting and Financial Reporting Standards, include whether:

- the organization is legally separate (can sue and be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is fiscal dependency by the organization on the District

Based on the aforementioned criteria, the Eagle Mountain-Saginaw Independent School District has no component units.

B. BASIS OF PRESENTATION

The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity, within the governmental and business-type activities columns, has been removed from these statements, except that interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and 2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

Fund Financial Statements:

The District segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Governmental funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses and balance of current financial resources. The District has presented the following major governmental funds:

1. **General Fund** - This fund is established to account for resources financing the fundamental operations of the District, in partnership with the community, in enabling and motivating students to reach their full potential. All revenues and expenditures not required to be accounted for in other funds are included here. This is a budgeted fund and any fund balances are considered resources available for current operations. Fund balances may be appropriated by the Board of Trustees to implement its responsibilities.
2. **Debt Service Fund** - This fund is established to account for payment of principal and interest on long-term general obligation debt and other long-term debts for which a tax has been dedicated. This is a budgeted fund. Any unused sinking fund balances are transferred to the General Fund after all of the related debt obligations have been met.
3. **Capital Projects Fund** - This fund is established to account for proceeds, from the sale of bonds and other resources to be used for Board authorized acquisition, construction, or renovation, as well as, furnishings and equipping of major capital facilities. Upon completion of a project, any unused bond proceeds are transferred to the Debt Service Fund and are used to retire related bond principal.
4. **Special Revenue Fund-Child Nutrition Fund** - This fund is established to account for resources financing the child nutrition program of the District. Federal reimbursement revenues originating from the US Department of Agriculture, as well as user fees, are expended for program operations with any unused balances legally restricted for use in the program.

Additionally, the District reports the following fund types:

1. **Special Revenue Funds** - These funds are established to account for federally financed or expenditures legally restricted for specified purposes. In many special revenue funds, any unused balances are returned to the grantor at the close of specified project periods. For funds in this fund type, project accounting is employed to maintain integrity for the various sources of funds.
2. **Permanent Fund** - The District utilizes a permanent fund to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes to support the District's programs. The District has no permanent funds.
3. **Enterprise Fund** - The District utilizes enterprise funds to account for the Districts' activities for which outside users are charged a fee roughly equal to the cost of providing the goods or services of those activities. The District uses this fund to account for its employee childcare services, because this program is self-supporting and does not require subsidies from the general fund.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

4. **Internal Service Funds** – The District utilizes Internal Service Funds to account for revenues and expenses related to services provided to parties inside the District on a cost reimbursement basis. These funds facilitate distribution of support costs to the users of support services. The District has no internal service funds.
5. **Private Purpose Trust Funds** – The District accounts for donations for which the donor has stipulated that both the principal and the income may be used for purposes that benefit parties outside the District. The District has no private purpose trust funds.
6. **Fiduciary Funds** – The District reports Custodial Funds as Fiduciary Funds. Custodial Funds are custodial in nature and account for activities of student and employee groups. Custodial Funds exist with the explicit approval of, and are subject to revocation by, the Board. The District's Custodial Fund is the Student Activity Fund.

Activities accounted for in the Special Revenue Funds are:

ESEA I, A Improving Basic Programs - funds granted to serve students needing reading and math assistance
IDEA-Part B Formula - funds granted for children with disabilities
IDEA-Part B Preschool - funds granted for preschool children with disabilities
National Breakfast and Lunch Program - funds granted to serve meals to disadvantaged children
Career and Technical - funds granted for vocational program for students
ESEA II, A Training and Recruiting - funds for training to improve teacher and principal quality
Title III, A English Lang. Acquisition - funds to improve the education of limited English proficient children
Medicaid Admin. Claim MAC - funds to reimburse Medicaid state plan administrative costs
ESSER III Homeless Children - funds granted through the ARP Act for educational programs for homeless students
ESSER III – funds granted through the ARP Act to help the District operate and instruct students during the pandemic
COPS Grant - funds granted to support and assist districts in improving efforts to reduce violent crime in and around schools
Summer School LEP - funds for summer education of limited English proficient students
ESEA Title IV, Part A - funds granted for student support and academic enrichment
Visually Impaired - funds granted for visually impaired students
Advanced Placement Incentives - funds granted under the Texas Advanced Placement Award incentive program
State Instructional Materials - funds granted for textbook and technology needs
Dyslexia Grant - funds granted to increase the District's capacity to serve students with dyslexia
School Safety and Security Grants - funds granted from multiple grants for additional safety and security equipment
Read to Succeed - funds from state license fees for reading programs
TCLAS-GR – funds granted through the State to provide emergency relief related to the pandemic
Special Education Autism Grant – funds granted to provide services to students with autism
Campus Activity Funds - accounts for funds raised by a campus for the benefit of that campus
Lions Club Foundation - accounts for the use of a grant received by the District for a specific purpose

The enterprise fund and internal service funds are proprietary fund types. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for the proprietary funds include the cost of personal and contractual services, supplies and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

C. MEASUREMENT FOCUS/BASIS OF ACCOUNTING

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide statements and fund financial statements for proprietary are reported using the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets, deferred outflows of resources and liabilities (whether current or non-current) are included on the statement of net position and the operating statements present increases (revenues) and decreases (expenses) in net total position. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time the liability is incurred. Agency funds have no measurement focus.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual; i.e., when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The District considers property taxes as available if they are collected within 60 days after year-end. A 90-day availability period is also used for recognition of all other Governmental Fund revenues. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only when payment is due.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS-Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

The revenue susceptible to accrual are property taxes, charges for services, interest income and intergovernmental revenues. All other Governmental Fund Type revenues are recognized when received.

Revenues from state and federal grants are recognized as earned when the related program expenditures are incurred. Funds received but unearned are reflected as unearned revenues, and funds expended but not yet received are shown as receivables.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first when appropriate, then unrestricted resources as they are needed.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

Revenue from investments, including governmental external investment pool, is based upon fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Most investments are reported at amortized cost when the investments have remaining maturities of one year or less at time of purchase. External investment pool are permitted to report short-term debt investments at amortized cost, provided that the fair value of those investments is not significantly affected by the impairment of the credit standing of the issuer, or other factors. For that purpose, a pool's short-term investments are those with remaining maturities of up to ninety days.

In accordance with the FAR, the District has adopted and installed an accounting system which exceeds the minimum requirements prescribed by the State Board of Education and approved by the State Auditor. Specifically, the District's accounting system uses codes and the code structure presented in the Accounting Code Section of the FAR.

D. BUDGETARY CONTROL

The Board adopts annual budgets on a basis consistent with GAAP for the General Fund, Debt Service Fund, and the Food Service Special Revenue Fund. The budget is prepared and controlled at the fund and object level for revenues, and the fund and function level for expenditures. The remaining special revenue funds and the Capital Projects Fund adopt project-length budgets which do not correspond to the District's fiscal year.

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

- Prior to August 20th, the District prepares a budget based on the modified zero-based budgeting concept for the next succeeding fiscal year. The operating budget includes proposed expenditures and the means of financing them.
- After one or more budget workshops with the Board, a meeting is called for the purpose of adopting the proposed budget. At least ten days, but not more than 30 days, public notice of the meeting is required.
- Prior to September 1st, the Board legally adopts the budget for the General Fund, Debt Service Fund, and the Food Service Special Revenue Fund.
- Expenditure budgets are controlled by the appropriate budget manager (principal, department director, or divisional administrator). Budget managers may authorize transfers within functional and organizational categories that do not affect the total functional and organizational appropriation.
- All budget appropriations lapse at year-end.

Over the course of the year, budget amendments and transfers are necessary to realign funds, which will increase and/or decrease various function levels and object series within the budget. Expenditure amendments and transfers between functional categories must be approved before spending exceeds the functional category appropriation. All necessary amendments and transfers are presented to the Board for approval at regular Board meetings and reflected in the official minutes.

E. ENCUMBRANCE ACCOUNTING

The District employs encumbrance accounting, whereby encumbrances for goods or purchased services are documented by purchase orders and contracts. An encumbrance represents a commitment of Board appropriation related to unperformed contracts for goods and services. The issuance of a purchase order or the signing of a contract creates an encumbrance but does not

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

represent an expenditure for the period, only a commitment to expend resources. Appropriations lapse at August 31 and encumbrances outstanding at that time are either canceled or appropriately provided for in the subsequent year's budget.

F. CASH AND TEMPORARY INVESTMENTS

The cash portion of this caption in the accompanying fund financial statements is comprised of demand accounts, imprest funds and money market savings accounts. The District maintains a demand account on an imprest basis through which most obligations are paid. Checking account balances for most government fund expenditures are pooled into one demand account.

The District's investments in state investment pools are considered to be cash and cash equivalents. All daily receipts are deposited to demand accounts until the funds are invested under the terms of the District's depository contract.

The District's investment in government securities is considered to be cash and cash equivalents and has been adjusted to fair value.

G. PREPAID ITEMS

Prepaid balances are for payments made by the District in the current year to provide services occurring in the subsequent fiscal year, and prepaid items have been shown as nonspendable fund balance to signify that a portion of fund balance is not available for other subsequent expenditures.

H. INVENTORIES

The consumption method is used to account for inventories of food products, school supplies and athletic equipment. Under this method, these items are carried in an inventory account of the respective fund at cost, using the first-in, first-out method of accounting and are subsequently charged to expenditures when consumed. In the General Fund, reported inventories have been shown as nonspendable fund balance to indicate that they are unavailable as current expendable financial resources.

Inventories of food commodities used in the food service program are recorded at fair market values supplied by the Texas Department of Human Services. Although commodities are received at no cost, their fair market value is recorded as inventory and deferred revenue when received. When requisitioned, inventory and deferred revenues are relieved, expenditures are charged, and revenue is recognized for an equal amount. Commodities on hand at August 31, 2024 totaled \$0.

I. INTERFUND RECEIVABLES AND PAYABLES

During the course of normal operations, the District has numerous transactions between funds. The most significant are:

- (A) Inventory is maintained in the General Fund but available for consumption by all funds on a cost reimbursement basis, and
- (B) Short-term interfund loans, due to the fact that checking account balances for most governmental funds are pooled into one demand account.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

J. CAPITAL ASSETS

Capital assets, which includes property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized. Interest has not been capitalized during the construction period on property, plant and equipment.

Assets capitalized have an original cost of \$5,000 or more and over one-year of useful life. Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Buildings	50 Years
Furniture and Equipment	5-10 Years

In May 2021, GASB Implementation Guide No. 2021-1 updated guidance to require the capitalization of purchases of certain groups of assets with individual values less than the capitalization threshold, effective for fiscal years beginning after June 15, 2023. In prior years, the District had expended purchase of groups of assets with individual values less than the District's capitalization threshold.

K. COMPENSATED ABSENCES

It is the District's policy that after 5 years a terminating employee will be compensated for unused local leave, up to a certain maximum number of days. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Vacations are to be taken within the same year they are earned, and any unused days at the end of the calendar year are forfeited. Therefore, no liability for unused vacation leave has been accrued in the accompanying financial statements.

L. CASH EQUIVALENTS

For purposes of the statement of cash flows, the Childcare Services Fund considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

M. NET POSITION

Net position represents the difference between assets, deferred outflows of resources, deferred inflows of resources and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciations, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

N. LONG-TERM OBLIGATIONS

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. Accretion is an adjustment of the difference between the price of a bond issued at an original discount and the par value of the bond. For the governmental activities debt, the accreted value is recognized as it accrues by fiscal year.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

O. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

Deferred outflows and inflows of resources are reported in the statement of financial position as described below:

A deferred outflow of resources is a consumption of a government's net assets (a decrease in assets in excess of any related decrease in liabilities or an increase in liabilities in excess of any related increase in assets) by the government that is applicable to a future reporting period. The District has three items that qualify for reporting in this category:

Deferred outflows of resources for refunding - Reported in the government-wide statement of net position, the deferred charge on bond refundings results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The amount of deferred outflows reported in the governmental activities for the deferred charge on bond refundings at August 31, 2024 was \$34,862,481.

Deferred outflows of resources for pension - Reported in the government-wide financial statement of net position, this deferred outflow results from pension plan contributions made after the measurement date of the net pension liability and the results of differences between expected and actual actuarial experiences. The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The other pension related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan which is currently approximately 5.6705 years.

A deferred outflow for pension expense results from payments made to the TRS pension plan by the District after the plan's measurement date. The amount of deferred outflows reported in the governmental activities for deferred pension expenses at August 31, 2024 was \$39,762,166.

Deferred outflows of resources for OPEB- Reported in the government-wide financial statement of net position, this deferred outflow results from OPEB plan contributions made after the measurement date of the net OPEB liability and the results of differences between expected and actual investment earnings and changes in proportionate share. The deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the next fiscal year. The other OPEB related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with OPEB through the OPEB plan which is currently approximately 9.2215 years. The amount of deferred outflows reported in the governmental activities for deferred OPEB expense at August 31, 2024 was \$20,343,272.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

A *deferred inflow of resources* is an acquisition of a government's net assets (an increase in assets in excess of any related increase in liabilities or a decrease in liabilities in excess of any related decrease in assets) by the government that is applicable to a future reporting period. The District has three items that qualify for reporting in this category:

Deferred inflows of resources for unavailable revenues - Reported only in the governmental funds balance sheet, unavailable revenues from property taxes arise under the modified accrual basis of accounting. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The District reported property taxes that are unavailable as deferred inflows of resources in the fund financial statements. The amount of deferred inflows of resources reported in the governmental funds at August 31, 2024 was \$2,505,517.

Deferred inflows of resources for pension - Reported in the government-wide financial statement of net position, these deferred inflows result primarily from differences between projected and actual earnings on pension plan investments. These amounts will be amortized over a closed five-year period. In fiscal year 2024, the District reported deferred inflows of resources for pensions in the governmental activities in the amount of \$4,008,982.

Deferred inflows of resources for OPEB - Reported in the government-wide financial statement of net position, these deferred inflows result primarily from differences between expected and actual experience and from changes in assumptions. These amounts will be amortized over the average expected remaining service life (AERSL) of all members (9.2215 years for the 2023 measurement year). In fiscal year 2024, the District reported deferred inflows of resources for OPEB in the governmental activities in the amount of \$53,555,297.

P. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal 2024, the District purchased commercial insurance to cover general liabilities and property damage, and retained some risk through the establishment of deductibles on policies. There were no significant reductions in coverage in the past fiscal year.

Q. SUBSEQUENT EVENTS

Management has reviewed events subsequent to August 31, 2024 through January 6, 2025, which is the date the financial statements were available to be issued. No subsequent events were identified that are required to be disclosed in the financial statements.

R. ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

S. DATA CONTROL CODES

The Data Control Codes refer to the account code structure prescribed by the Texas Education Agency (the "Agency") in their Resource Guide. The Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a Statewide data base for policy development and funding plans.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

NOTE 2. FUND BALANCE

The District implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions" in a prior year. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent.

Fund Balance Classification: The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The District has classified prepaid items and inventories as being nonspendable as these items are not expected to be converted to cash.
- Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. Debt service resources are to be used for future servicing of the District's bonded debt and are restricted through debt covenants. Capital projects fund resources are to be used for future construction and renovation projects and are restricted through bond orders and constitutional law. Food service resources are to be used in the food service program.
- Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the District's Board of Trustees. The Board of Trustees establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This can also be done through adoption and amendment of the budget. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The Board of Trustees have committed resources as of August 31, 2024 for campus activities.
- Assigned: This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Trustees or through the Board of Trustees delegating this responsibility to other individuals in the District. Under the District's adopted policy, only the Board of Trustees may assign amounts for specific purposes. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund. The District has assigned fund balance at August 31, 2024 for a projected 2024-25 budget deficit.
- Unassigned: This classification includes all amounts not included in other spendable classifications, including the residual fund balance for the General Fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Trustees has provided otherwise in its commitment or assignment actions.

During the current fiscal period, the Board of Trustees adopted a fund balance policy that expresses an intent to maintain a level of assigned and unassigned fund balance in the general fund equal to 25 percent of the fund's operating expenditures.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

The details of the fund balances are included in the Governmental Funds Balance Sheet (pages 20 and 21) and are described below:

General Fund

The General Fund has unassigned fund balance of \$57,873,295 at August 31, 2024. Prepaid expenditures (prepaid items) of \$4,162,574 and inventories of \$75,042 are considered nonspendable fund balance. The District has committed general fund fund balance resources of \$15,730,057 to cover a projected 2024-25 budget deficit.

Other Major Funds

The Debt Service Fund has restricted funds of \$28,823,187 at August 31, 2024 consisting primarily of property tax collections that are restricted for debt service payments on bonded debt. \$4,743,555 of the fund balance of the Food Service Fund (a special revenue fund) is shown as restricted for that purpose. The remainder of the Food Service Fund is shown as nonspendable fund balance because it has already been spent on inventories (\$376,083) or prepaid items (\$47,682). The Capital Projects Fund has restricted funds of \$221,891,374 at August 31, 2024, consisting primarily of unspent bond funds that are restricted for ongoing construction contracts.

Other Funds

The fund balance of \$1,532,361 of the Campus Activity Fund (a special revenue fund) is shown as committed due to Board policy committing those funds to campus activities.

NOTE 3. DEPOSITS AND INVESTMENTS

The District's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the District's agent bank approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

1. Cash Deposits:

At August 31, 2024, the carrying amount of the District's deposits checking accounts and interest-bearing savings accounts was \$20,990,219 and the bank balance was \$24,417,374. The District's cash deposits at August 31, 2024 and at all times during the current fiscal year were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

2. Investments:

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

In compliance with the Public Funds Investment Act, the District has adopted a deposit and investment policy. That policy addresses the following risks:

- a. Custodial Credit Risk – Deposits: In the case of deposits, this is the risk that, in the event of a bank failure, the District’s deposits may not be returned to it. As of August 31, 2024, the District’s cash balances totaled \$24,417,374. This entire amount was either collateralized with securities held by the District’s financial institution’s agent in the District’s name or covered by FDIC insurance. Thus, the District’s deposits are not exposed to custodial credit risk.
- b. Custodial Credit Risk - Investments: For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At August 31, 2024, the District held its investments in three public funds investment pools (Lone Star, TexPool and Texas Range), U.S. Government securities, state and local government securities and Asian development bank notes. Investments in external investment pools are considered unclassified as to custodial credit risk because they are not evidenced by securities that exist in physical or book entry form. Investments in U.S. Government securities do not carry custodial credit risk.
- c. Credit Risk - This is the risk that an issuer or other counterparty to an investment will be unable to fulfill its obligations. The rating of securities by nationally recognized rating agencies is designed to give an indication of credit risk. The credit quality rating for TexPool at year-end was AAAM (Standard & Poor’s), and for Lone Star and Texas Range was AA Af (Standard & Poor’s).
- d. Interest Rate Risk - This is the risk that changes in interest rates will adversely affect the fair value of an investment. The District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to less than one year from the time of purchase. The weighted average maturity for the TexPool, Texas Range and Lone Star investments is less than 60 days and for the District’s investment in U.S. Government securities is 3 years.
- e. Foreign Currency Risk - This is the risk that exchange rates will adversely affect the fair value of an investment. At August 31, 2024, the District was not exposed to foreign currency risk.
- f. Concentration of Credit Risk - This is the risk of loss attributed to the magnitude of the District’s investment in a single issuer (i.e., lack of diversification). Concentration risk is defined as positions of 5 percent or more in the securities of a single issuer. Investment pools are excluded from the 5 percent disclosure requirement.

Public funds investment pools in Texas (“Pools”) are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the “Act”), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and 3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares.

The District’s investments in Pools are reported at an amount determined by the fair value per share of the pool’s underlying portfolio, unless the pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission (“SEC”) as an

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

The District's investments at August 31, 2024, are shown below:

Name	Carrying Amount	Fair Value
TexPool	\$ 57,444,654	\$ 57,444,654
Lone Star	157,909,872	157,909,872
Texas Range	18,294,566	18,294,566
U.S. Government securities	9,764,843	9,764,843
State & Local Govt securities	98,556,930	98,556,930
Asian Development Bank notes	487,320	487,320
Total	<u>\$342,458,185</u>	<u>\$342,458,185</u>

Fair Value Measurements

The District categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements requires judgement and considers factors specific to each asset or liability.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

<u>Fair Value Measurements Using</u>				
	Balance at 8/31/24	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<u>Investments by Fair Value level:</u>				
US Government Securities	\$ 9,764,843	\$ 9,764,843	\$ -	\$ -
State & Local Government Securities	98,556,930	98,556,930	-	-
Asian Development Bank Notes	487,320	487,320	-	-
Total	<u>\$108,809,093</u>	<u>\$108,809,093</u>	<u>\$ -</u>	<u>\$ -</u>

The District estimates the fair value of these investments using inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

The District's investment in the TexPool, Lone Star and Texas Range (statewide 2a7-like external investment pools) are not required to be measured at fair value but are measured at amortized cost. There are no limitations or restrictions on participant withdrawals.

Security & Monitoring Services	259,360
Community Services	146,181
Total depreciation expense-Governmental activities	<u>\$27,797,951</u>

Land and construction in progress are not depreciated.

NOTE 5. LONG-TERM DEBT

The District has entered into a continuing disclosure undertaking to provide Annual Reports and Material Event Notices to the State Information Depository of Texas (SID), which is the Municipal Advisory Council. This information is required under SEC Rule 15c2-12 to enable investors to analyze the financial condition and operations of the District.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

Long-term debt of the District consists of twenty series of general obligation bonds, maintenance tax notes, capital leases, accreted interest on capital appreciation bonds, premiums/discounts on bond issuances and right-to-use lease liabilities and SBITA liabilities. All long-term debt represents transactions in the District's governmental activities. No long-term debt exists in the District's business-type activities.

The following is a summary of the changes in the District's Long-term Debt for the year ended August 31, 2024:

Description	Interest Rate Payable	Amount Original Issue	Amounts Outstanding 9/1/2023	Additions	Refunded/ Retired	Amounts Outstanding 8/31/2024	Due Within One Year

Total Other Obligations			<u>128,593,609</u>	<u>9,964,729</u>	<u>11,729,215</u>	<u>126,829,123</u>	<u>10,391,773</u>
Total Obligations of District			<u>\$ 1,177,988,609</u>	<u>\$ 205,384,729</u>	<u>\$ 93,619,215</u>	<u>\$ 1,289,754,123</u>	<u>\$ 46,246,773</u>

The District issues general obligation bonds for the governmental activities to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the District. Current principal and interest requirements are payable solely from future revenues of the Debt Service Fund which consists principally of property taxes collected by the District and interest earnings. Certain outstanding bonds may be redeemed at their par value prior to their normal maturity dates in accordance with the terms of the related bond indentures. The District has never defaulted on any principal or interest payment.

The District will pay a 4.00% interest rate on the Series 2011 variable rate bonds until July 31, 2027. For purposes of the debt service requirements disclosed in Note 8, a 5.00% interest rate is assumed thereafter.

There are a number of limitations and restrictions contained in the various general obligation bonds indentures. The District is in compliance with all significant limitations and restrictions at August 31, 2024.

In 2010 the District issued \$12,445,000 Series 2010A Qualified School Construction Bonds under a program of tax-credit bonds for school construction authorized by the American Recovery and Reinvestment Act. This program allows the District to receive an interest subsidy from the Federal government semiannually that was intended to pay 100% of the interest requirements on the bonds. Since October 1, 2015, however, sequestration reductions have reduced the subsidy received by 6.9% each year. The interest subsidies received during the current fiscal year have been shown in the accompanying financial statements as Federal revenue in the debt service fund.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

The debt agreement requires the District to deposit a specified amount annually on August 15 into a sinking fund for 9 years, beginning with the fiscal year ended August 31, 2019. Those sinking fund deposits will be used to retire the District's outstanding principal of \$12,445,000 upon maturity on August 15, 2027. The balance of the sinking fund at August 31, 2024 of \$7,945,000 is being held by the District as cash in the sinking fund and is presented as part of the District's debt service fund cash and cash equivalents in the accompanying financial statements.

NOTE 6. LEASES

During the year ended August 31, 2022, the District adopted GASB Statement No. 87 - Leases. This statement increased the usefulness of the District's financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract.

The District has entered into long-term agreements for the right-to-use copy machines and other technology equipment. No impairment related to losses were recognized by the District. The lease assets are amortized over the life of the agreements.

The District measured the lease liability at the present value of the original unpaid lease payments, discounted using the District's incremental borrowing rate, which has ranged from 2.50% to 4.50%. A summary of the lease activity for the year is shown below.

	Balance 8/31/2023	Additions	Retirements	Balance 8/31/2024
Right-to-Use Asset	\$ 12,423,082	\$ 578,179	\$ -	\$ 13,001,261
Less Accumulated Amortization	<u>(7,574,086)</u>	<u>(1,960,338)</u>	<u>-</u>	<u>(9,534,424)</u>
Total Right-to-Use Asset, Net	<u>\$ 4,848,996</u>	<u>\$ (1,382,159)</u>	<u>\$ -</u>	<u>\$ 3,466,837</u>

	Balance 8/31/2023	Additions	Retirements	Balance 8/31/2024
Lease Liability	\$ 4,890,809	\$ 578,179	\$ (1,922,514)	\$ 3,546,474
Total Lease Liability	<u>\$ 4,890,809</u>	<u>\$ 578,179</u>	<u>\$ (1,922,514)</u>	<u>\$ 3,546,474</u>

Future payment requirements under the leases as of August 31, 2024, are as follows:

Year Ended	Principal	Interest	Total
August 31,			
2025	\$1,777,434	\$120,158	\$1,897,592
2026	1,117,906	55,319	1,173,225
2027	651,134	14,542	665,676
Thereafter	<u>-</u>	<u>-</u>	<u>-</u>
	<u>\$3,546,474</u>	<u>\$190,019</u>	<u>\$3,736,493</u>

FOR THE YEAR ENDED AUGUST 31, 2024

NOTE 7. SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS

During the year ended August 31, 2023, the District adopted GASB Statement No. 96 – Subscription-Based Information Technology Arrangements (SBITAs). This statement increased the usefulness of the District's financial statements by requiring recognition of certain lease assets and liabilities for SBITAs that previously were classified as operating licenses or subscriptions and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract.

The District has entered into long-term agreements for the right-to-use various technology licenses and subscriptions. No impairment related to losses were recognized by the District. The SBITA assets are amortized over the life of the agreements.

The District measured the subscription liability at the present value of the original unpaid subscription payments, discounted using the District's incremental borrowing rate of 4.50%. A summary of the SBITA activity for the year is shown below.

	Balance 8/31/2023	Additions	Retirements	Balance 8/31/2024
Right-to-Use Asset	\$ 3,235,510	\$ 2,812,587	\$ (25,043)	\$ 6,023,054
Less Accumulated Amortization	<u>(1,525,728)</u>	<u>(1,065,705)</u>	<u>13,217</u>	<u>(2,578,216)</u>
Total Right-to-Use Asset, Net	<u>\$ 1,709,782</u>	<u>\$ 1,746,882</u>	<u>\$ (11,826)</u>	<u>\$ 3,444,838</u>

2045-2049	236,510,000	42,669,830	279,179,830
2050-2054	<u>97,200,000</u>	<u>8,037,199</u>	<u>105,237,199</u>
	<u>\$1,162,925,000</u>	<u>\$655,503,127</u>	<u>\$1,818,428,127</u>

NOTE 9. DEFEASED BONDS OUTSTANDING

In prior years, the District issued refunding bonds to defease certain outstanding bonds for the purpose of consolidation and to achieve debt service savings. The District has placed the proceeds from the refunding issues in irrevocable escrow accounts with a trust agent to ensure payment of debt service on the refunded bonds.

Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the District's financial statements. Although defeased, the refunded debt from those earlier issues will not be actually retired until the call dates have come due or until maturity if they are not callable issues. On August 31, 2024, \$15,755,000 of bonds outstanding are considered defeased.

NOTE 10. PROPERTY TAXES

The Texas Legislature in 1979 adopted a comprehensive Property Tax Code which established an appraisal district and an appraisal review board in each county in the State of Texas. Tarrant County Appraisal District (TCAD) is responsible for the appraisal of property for all taxing units in Tarrant County, including the District. Under the terms of a contract for appraisal services, the District paid TCAD \$887,497 in fiscal year 2024 for appraising property.

The District levies its taxes on October 1 on the assessed (appraised) value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. The appraisal and recording of all property within the District is the responsibility of the Tarrant County Appraisal District (TCAD), an independent government unit with a board of directors appointed by the taxing jurisdictions within the county and funded from assessments against those taxing jurisdictions. TCAD is required by law to assess property at 100% of its appraised value. Real property must be reappraised at least every two years. Under certain circumstances taxpayers and taxing units, including the District, may challenge orders of the TCAD Review Board through various appeals and, if necessary, legal action. Taxes are due upon receipt of the tax bill and are past due and subject to interest if not paid by February 1 of the year following the October 1 levy date. The assessed value of the property tax roll upon which the levy for the 2023-24 fiscal year was based was \$14,685,893,922. Taxes are delinquent if not paid by June 30. Delinquent taxes are subject to both penalty and interest charges at the rate of 1.5% per month of delinquency, plus 15 % delinquent collection fees for attorney costs.

The tax rates assessed for the year ended August 31, 2024, to finance General Fund operations and the payment of principal and interest on general obligation long-term debt were \$0.7492 and \$0.498 per \$100 valuation, respectively, for a total of \$1.2472 per \$100 valuation.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

Current tax collections for the year ended August 31, 2024 were 99.82% of the year-end adjusted tax levy. Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the General and Debt Service Funds are based on historical experience in collecting taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. As of August 31, 2024, property taxes receivable, net of estimated uncollectible taxes, totaled \$1,207,232 and \$540,255 for the General and Debt Service Funds, respectively.

Property taxes are recorded as receivables and unavailable revenues at the time the taxes are assessed. Revenues are recognized as the related ad valorem taxes become available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay current liabilities. Taxes not expected to be collected within sixty days of the fiscal year ending are recorded as deferred revenues and are recognized when they become available. Taxes collected prior to the levy date to which they apply are recorded as unavailable revenues and recognized as revenue of the period to which they apply.

NOTE 11. DEFINED BENEFIT PENSION PLAN

Plan Description. Eagle Mountain-Saginaw Independent School District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at <https://trs.texas.gov/pages/aboutpublications.aspx>, by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698, or by calling (512)542-6592.

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered under a previous rule. There are no automatic post-employment benefit changes, including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

such action. Actuarial implications of the funding provided in this manner are determined by the System's actuary.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2019 thru 2025.

	<u>Contribution Rates</u>	
	<u>2023</u>	<u>2024</u>
Member	8.00%	8.25%
Non-Employer Contributing Entity (State)	8.00%	8.25%
Employers	8.00%	8.25%
Eagle Mountain-Saginaw ISD FY24 Employer Contributions	\$	7,539,184
Eagle Mountain-Saginaw ISD FY24 Member Contributions	\$	14,661,524
Eagle Mountain-Saginaw ISD FY24 NECE On-Behalf Contributions	\$	8,736,162

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including the TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers including public schools are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding source or a privately sponsored source, from non-educational and general, or local funds.
- All public schools must contribute 1.8 percent of the member's salary beginning in fiscal year 2023, gradually increasing to 2 percent in fiscal year 2025.

In addition to the employer contributions listed above, there are additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

Actuarial Assumptions. The total pension liability in the August 31, 2023 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2022 rolled forward to August 31, 2023
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Fair Value
Single Discount Rate	7.00%
Long-term expected Investment Rate of Return	7.00%
Municipal Bond Rate as of August 2023	4.13%
Inflation	2.30%
Salary Increases Including Inflation	2.95% to 8.95%
Benefit Changes During the Year	None
Ad hoc Post Employment Benefit Changes	None

The actuarial methods and assumptions are used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2022. For a full description of these assumptions please see the actuarial valuation report dated November 22, 2022.

Discount Rate. A single discount rate of 7.00 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.00 percent. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 9.50 percent of payroll in fiscal year 2024 gradually increasing to 9.56 percent in fiscal year 2025 and thereafter. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.00%.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2023 are summarized below:

Asset Class	Target Allocation ¹	Long-Term Expected Arithmetic Real Rate of Return ²	Expected Contribution To Long-Term Portfolio Returns
Global Equity			
U.S.	18%	4.0%	1.00%
Non-U.S. Developed	13%	4.5%	0.90%
Emerging Markets	9%	4.8%	0.70%

¹ Target allocations are based on the FY23 policy model.

² Capital Market Assumptions come from Aon Hewitt (as of 06/30/2023).

³ The volatility drag results from the conversion between arithmetic and geometric mean returns.

⁴ Absolute Return includes credit sensitive investments.

Discount Rate Sensitivity Analysis. The following table presents the Net Pension Liability of the plan using the discount rate of 7.00 percent, and what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current rate.

	1% Decrease in Discount Rate (6.00%)	Discount Rate (7.00%)	1% Increase in Discount Rate (8.00%)
Eagle Mountain-Saginaw ISD's proportionate share of the net pension liability:	\$134,570,976	\$90,010,706	\$52,958,813

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At August 31, 2024, Eagle Mountain-Saginaw Independent School District reported a liability of \$90,010,706 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to Eagle Mountain-Saginaw Independent School District. The amount recognized by Eagle Mountain-Saginaw Independent School District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with Eagle Mountain-Saginaw Independent School District were as follows:

District's Proportionate share of the collective net pension liability	\$ 90,010,706
State's proportionate share that is associated with the District	<u>116,743,620</u>
Total	<u>\$206,754,326</u>

The net pension liability was measured as of August 31, 2022 and rolled forward to August 31, 2023 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2022 thru August 31, 2023.

At August 31, 2023 the employer's proportion of the collective net pension liability was 0.1310383553%, an increase of 4.67% from its proportionate share of 0.1251966114% at August 31, 2022.

Changes in Assumptions and Benefits Since the Prior Actuarial Valuation.

The actuarial assumptions and methods are the same as used in the determination of the prior year's net pension liability.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

The Texas 2023 Legislature passed legislation that provides a one-time stipend to certain retired teachers. The stipend was paid to retirees beginning in September of 2023. The Legislature appropriated funds to pay for this one-time stipend so there will be no impact on the net pension liability of TRS. In addition, the Legislature also provided for a cost of living adjustment (COLA) to retirees which was approved during the November 2023 elections which will be paid in January, 2024. Therefore, this contingent liability was not reflected as of August 31, 2023.

The amount of pension expense recognized by Eagle Mountain-Saginaw Independent School District in the reporting period was \$11,089,938.

For the year ended August 31, 2024 Eagle Mountain-Saginaw Independent School District recognized pension expense of \$17,627,277 and revenue of \$17,627,277 for support by the State.

At August 31, 2024, Eagle Mountain-Saginaw Independent School District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (The amounts shown below will be the cumulative layers from the current and prior years combined.):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$3,207,112	\$1,089,931
Changes in actuarial assumptions	8,513,250	2,083,386
Difference between projected and actual investment earnings	13,098,743	-
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	7,403,877	835,665
Contributions paid to TRS subsequent to the measurement date	7,539,184	-
Total	\$39,762,166	\$4,008,982

The net amounts of the District's balances of deferred outflows and inflows of resources (not including the deferred contribution paid subsequent to the measurement date) related to pensions will be recognized in pension expense as follows:

Year ended August 31:	Pension Expense Amount	Balance of Deferred Outflows (Deferred Inflows)
2025	\$ 6,144,449	\$ 22,069,551
2026	4,261,179	17,808,372
2027	12,690,999	5,117,373
2028	4,469,138	648,235
2029	648,235	-
Thereafter	-	-

NOTE 12. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS

Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS- Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan with a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

OPEB Plan Fiduciary Net Position. Detail information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.texas.gov/pages/aboutpublications.aspx>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided. TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table:

TRS-Care Monthly for Retirees		
	<u>Medicare</u>	<u>Non-Medicare</u>
Retiree*	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree* and Children	468	408
Retiree and Family	1,020	999

* or surviving spouse

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon active employee compensation. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of salary. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act, which is 0.75 percent of each active employee's pay for fiscal year 2023. The following table shows contributions to the TRS-Care plan by type of contributor.

<u>Contribution Rates</u>		
	<u>2023</u>	<u>2024</u>
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/private Funding remitted by Employers	1.25%	1.25%
Eagle Mountain-Saginaw ISD FY24 Employer Contributions	\$1,534,763	
Eagle Mountain-Saginaw ISD FY24 Member Contributions	\$1,155,353	
Eagle Mountain-Saginaw ISD FY24 NECE On-behalf Contributions	\$1,741,974	

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to, regardless of whether or not they participate in the TRS Care OPEB program. When hiring a TRS retiree, employers are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$21.3 million in fiscal year 2023 provided by Rider 14 of the Senate Bill GAA of the 87th Legislature. These amounts were re-appropriated from amounts received by the pension and TRS-Care funds in excess of the state's actual obligation and then transferred to TRS-Care.

Actuarial Assumptions. The actuarial valuation was performed as of August 31, 2022. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2023

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2021.

The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2022 TRS pension actuarial valuation that was rolled forward to August 31, 2023:

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Rates of Disability

The active mortality rates were based on PUB (2010), Amount-Weighted, Below-Median Income, Teacher male and female tables (with a two-year set forward for males). The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from the mortality projection scale MP-2021.

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2022 rolled forward to August 31, 2023
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	4.13%
Aging Factors	Based on specific plan experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claim costs
Projected Salary Increases	2.95% to 8.95%, including inflation
Election Rates	Normal Retirement: 62% participation prior to age 65 and 25% participation after age 65
Ad hoc post-employment benefit changes	None

Discount Rate. A single discount rate of 4.13% was used to measure the total OPEB liability. There was an increase of 0.22 percent in the discount rate since the previous year. Because the investments are held in cash and there is no intentional objective to advance fund the benefits, the single discount rate is equal to the prevailing municipal bond rate.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

The source of the municipal bond rate is the Fidelity “20-year Municipal GO AA Index” as of August 31, 2023 using the fixed-income market data/yield curve/data municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (4.13%) in measuring the Net OPEB Liability.

	1% Decrease in Discount Rate (3.13%)	Current Single Discount Rate (4.13%)	1% Increase in Discount Rate (5.13%)
District’s proportionate share of the Net OPEB Liability:	\$43,392,517	\$36,842,275	\$31,497,112

Healthcare Cost Trend Rates Sensitivity Analysis - The following schedule shows the impact of the net OPEB liability if a healthcare trend rate that is one-percentage less than or one-percentage point greater than the health trend rates is assumed.

	1% Decrease in Healthcare Trend Rate	Current Single Healthcare Trend Rate	1% Increase in Healthcare Trend Rate
District’s proportionate share of the Net OPEB Liability:	\$30,337,773	\$36,842,275	\$45,210,332

OPEB Liabilities, OPEB Expenses, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. At August 31, 2024, the District reported a liability of \$36,842,275 for its proportionate share of the TRS’s Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District.

The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District’s Proportionate share of the collective Net OPEB Liability	\$36,842,275
State’s proportionate share that is associated with the District	<u>44,455,867</u>
Total	<u>\$81,298,142</u>

The Net OPEB Liability was measured as of August 31, 2022 and rolled forward to August 31, 2023 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer’s proportion of the Net OPEB Liability was based on the employer’s contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2022 thru August 31, 2023.

At August 31, 2023 the employer’s proportion of the collective Net OPEB Liability was 0.1664186777%, an increase of 2.34% compared to the August 31, 2022 proportionate share of 0.1626192145%.

Changes Since the Prior Actuarial Valuation – The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

**EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

- The discount rate changed from 3.91 percent as of August 31, 2022 to 4.13 percent as of August 31, 2023, accompanied by revised demographic and economic assumptions based on the TRS experience study.

Changes of Benefit Terms Since the Prior Measurement Date – There were no changes in benefit terms since the prior measurement date.

The amount of OPEB expense recognized by the District in the reporting period was \$2,785,861.

For the year ended August 31, 2023, the District recognized OPEB expense of \$(9,503,726) and revenue of \$(9,503,276) for support provided by the State.

At August 31, 2024, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits related to OPEB from the following sources (the amounts shown below will be the cumulative layers for the current and prior years combined.):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$1,666,834	\$30,995,795
Changes in actuarial assumptions	5,028,702	22,559,502
Difference between projected and actual investment earnings	15,918	-
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	12,097,055	-
Contributions paid to TRS subsequent to the measurement date	1,534,763	-
Total	\$20,343,272	\$53,555,297

The net amounts of the employer's balances of deferred outflows and inflows of resources (not including the deferred contribution paid subsequent to the measurement date) related to OPEB will be recognized in OPEB expense as follows:

Year ended August 31:	OPEB Expense Amount	Balance of Deferred Outflows (Deferred Inflows)
2025	\$ (8,113,515)	\$ (26,633,273)
2026	(6,423,724)	(20,209,549)
2027	(4,136,046)	(16,073,503)
2028	(5,327,624)	(10,745,879)
2029	(4,354,044)	(6,391,835)
Thereafter	(6,391,835)	-

NOTE 13. MEDICARE PART D

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. These on-behalf payments are recognized as equal revenues and expenditures/expenses by the District. For the year ended August 31, 2024, the contribution made on behalf of the District was \$1,013,052.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT

Virtually all of the above interfund balances are short-term loans due to the fact that checking account balances for most governmental funds are pooled into one demand account. There are no interfund balances that are not expected to be repaid within one year.

There were no interfund transfers during the year ended August 31, 2024.

NOTE 16. DUE FROM OTHER GOVERNMENTS

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal, state and local governments as of August 31, 2024, are summarized below. All federal grants shown below are passed through the TEA and are reported on the combined financial statements as Due from Other Governments.

Fund	Local	State Entitlements	Federal Grants	Total
General	\$ 483,841	\$ 7,439,669	\$ 55,812	\$ 7,979,322

Total	<u>\$ 1,043,492</u>	<u>\$ 8,722,122</u>	<u>\$ 3,676,774</u>	<u>\$ 13,442,388</u>

NOTE 17. CONTINGENT LIABILITIES

The Tax Reform Act of 1986 imposed regulations on tax-exempt bond issues. Governmental bonds issued after August 31, 1986 are subject to the rebate provisions of the Tax Reform Act of 1986. The rebate applies to earnings from bond issue proceeds investments which exceed bond issue stated interest rates. The exact amount of liability, if any, will not be known until as long as five years from the bond issuance date. At August 31, 2024, the estimated rebate liability on outstanding bond series was \$4,987,057.

NOTE 18. LITIGATION AND CONTINGENCIES

The District is a party to various legal actions none of which is believed by administration to have a material effect on the financial condition of the District. Accordingly, no provision for losses has been recorded in the accompanying combined financial statements for such contingencies.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

Minimum foundation funding received from the Agency is based primarily upon information concerning average daily attendance at the District's schools which is compiled by the District and supplied to the Agency. Federal funding for Food Services under child nutrition programs is based primarily upon the number and type of meals served and on user charges as reported to the USDA. Federal and state funding received related to various grant programs are based upon periodic reports detailing reimbursable expenditures made in compliance with program guidelines to the grantor agencies.

The programs are governed by various statutory rules and regulations of the grantors. Amounts received and receivable under these various funding programs are subject to periodic audit and adjustment by the funding agencies. To the extent, if any, that the District has not complied with all the rules and regulations with respect to performance, financial or otherwise, adjustment to or return of funding monies may be required. In the opinion of the District's administration, there are no significant contingent liabilities relating to matters of compliance and, accordingly, no provision has been made in the financial statements for such contingencies.

The Tarrant County Appraisal District is a defendant in various lawsuits involving the property values assigned to property located within the District's boundaries on which the District assesses property taxes. The District could be required to refund property taxes paid on values which were greater than the ultimate final assessed valuation assigned by the court. Such lawsuits could continue several years into the future.

NOTE 19. REVENUES FROM LOCAL AND INTERMEDIATE SOURCES

During the current year, revenues from local and intermediate sources consisted of the following:

	General Fund	Special Revenue Fund	Debt Service Fund	Capital Projects Fund	Total
Property taxes	\$ 108,748,028	\$ -	\$ 72,448,682	\$ -	\$ 181,196,710

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

NOTE 20. UNEARNED REVENUE

Unearned revenue at year-end consisted of the following:

	General Fund	Special Revenue Fund	Debt Service Fund	Total
Lunchroom Receipts	\$ -	\$ 327,176	\$ -	\$ 327,176
Unspent Donations	86,190	-	-	86,190
Medicaid Admin Claim (MAC)	-	70,815	-	70,815
State Instructional Materials	-	2,318,974	-	2,318,974
AP Incentives	-	5,761	-	5,761
Read to Succeed	-	15,438	-	15,438
Other State Funds	-	1,200	-	1,200
Total	<u>\$ 86,190</u>	<u>\$ 2,739,364</u>	<u>\$ -</u>	<u>\$ 2,825,554</u>

NOTE 21. EXCESS OF EXPENDITURES OVER APPROPRIATIONS BY FUNCTION

The Texas Education Agency requires the budgets for the Governmental fund types to be filed with the Texas Education Agency. The budget should not be exceeded in any functional category under TEA requirements. Expenditures exceeded appropriations in no functional categories for the year ended August 31, 2024.

NOTE 22. SHARED SERVICE ARRANGEMENTS

The District participates in a shared services arrangement for deaf education services with several other school districts. Although the District contributes to the shared services arrangement based on its participation, the District does not account for revenues or expenditures in this program and does not disclose them in these financial statements. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, nor does the District have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant resources nor fiscal exigencies that would give rise to a future additional benefit or burden to Eagle Mountain-Saginaw ISD. The fiscal agent manager is responsible for all financial activities of the shared services arrangement. During the year ended August 31, 2024, the District contributed \$144,209 to the fiscal agent as its share of the costs of the joint venture.

The District participates in a shared services arrangement for juvenile justice alternative education services with several other school districts. Although the District contributes to the shared services arrangement based on its participation, the District does not account for revenues or expenditures in this program and does not disclose them in these financial statements. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, nor does the District have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant resources nor fiscal exigencies that would give rise to a future additional benefit or burden to Eagle Mountain-Saginaw ISD. The fiscal agent manager is responsible for all financial activities of the shared services arrangement. During the year ended August 31, 2024, the District contributed \$2,838 to the fiscal agent as its share of the costs of the joint venture.

NOTE 23. DEFERRED CHARGES ON BOND REFUNDINGS

The District's deferred charge on bond refundings are as follows:

Balance – August 31, 2023	\$37,515,747
Current year amortization	<u>(2,653,266)</u>
Balance – August 31, 2024	<u>\$34,862,481</u>

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

NOTE 24. SUBSEQUENT EVENT

Management has reviewed events subsequent to August 31, 2024 through January 6, 2025, which is the date the financial statements were available to be issued. No subsequent events were identified that were required to be recorded or disclosed in the financial statements.

NOTE 25. EXTRAORDINARY ITEMS

Extraordinary items shown in the Statement of Revenues, Expenditures and Changes in Fund Balances consists of insurance proceeds and related repair activities related to damages caused by flood and other natural disasters incurred by the District.

NOTE 26. PRIOR PERIOD ADJUSTMENTS

As described in Note 1, during the current fiscal year the District implemented GASB Implementation Guide No. 2021-1 which updated guidance concerning the capitalization of purchases of group of assets with individual values less than the District's capitalization threshold. As part of the implementation, the District recorded a prior period adjustment for \$1,988,737 increasing the beginning net position of the Governmental Activities. The net prior period adjustment was the result of an increase in capital assets of \$2,593,404 offset by an increase in accumulated depreciation of \$604,667.

In addition, as described in Note 5, the District annually deposits an amount into a sinking fund to set aside funds for retirement of the District's outstanding principal on its Series 2010A Qualified School Construction Bonds. In prior years the sinking fund deposits were erroneously shown in the financial statements as principal payments on the bond series. The August 31, 2023 balance of \$6,445,000 in the sinking fund account has been shown as a prior period adjustment in the fund financial statements in order to record the sinking fund asset.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED AUGUST 31, 2024

PENSION LIABILITY:

Changes of benefit terms:

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Changes of assumptions:

There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

OPEB LIABILITY:

Changes of benefit terms:

There were no changes in benefit terms since the prior measurement date.

Changes of assumptions:

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- The discount rate changed from 3.91 percent as of August 31, 2022 to 4.13 percent as of August 31, 2023. This change decreased the Total OPEB Liability.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Trustees
Eagle Mountain-Saginaw Independent School District
Fort Worth, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Eagle Mountain-Saginaw Independent School District, as of and for the year ended August 31, 2024, and the related notes to the financial statements, which collectively comprise Eagle Mountain-Saginaw Independent School District's basic financial statements, and have issued our report dated January 6, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees
Eagle Mountain-Saginaw Independent School District
Fort Worth, Texas

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Eagle Mountain-Saginaw Independent School District's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Eagle Mountain-Saginaw Independent School District's major federal programs for the year ended August 31, 2024. Eagle Mountain-Saginaw Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Eagle Mountain-Saginaw Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Eagle Mountain-Saginaw Independent School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Eagle Mountain-Saginaw Independent School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Eagle Mountain-Saginaw Independent School District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Eagle Mountain-Saginaw Independent School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Eagle Mountain-Saginaw Independent School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Eagle Mountain-Saginaw Independent School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Eagle Mountain-Saginaw Independent School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Eagle Mountain-Saginaw Independent School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED AUGUST 31, 2024

I. Summary of Auditor's Results

1. Type of auditor's report issued on the financial statements: Unmodified.
2. Internal control over financial reporting:
Material weakness(es) identified: None
Significant deficiency(ies) identified that are not considered to be material weaknesses: None reported
3. Noncompliance which is material to the financial statements: None
4. Internal controls over major federal programs:
Material weakness(es) identified: None
Significant deficiency(ies) identified that are not considered to be material weaknesses: None reported
5. Type of auditor's report on compliance for major federal programs: Unmodified.
6. Did the audit disclose findings which are required to be reported in accordance with 2 CFR 200.516(a)?: No
7. Major programs include:

ALN 32.009	FCC Emergency Connectivity Fund
ALN 84.425U	COVID 19 – ESSER III – School Emergency Relief
ALN 84.425W	ESSER III Homeless Children
ALN 93.489	CRRSA Child Care Relief Funds
8. Dollar threshold used to distinguish between Type A and Type B programs: \$750,000.
9. Low risk auditee: Yes

II. Findings Related to the Financial Statements

None

III. Other Findings

None

EAGLE MOUNTAIN-SAGINAW INDEPENDENT SCHOOL DISTRICT
NOTES ON ACCOUNTING POLICIES FOR FEDERAL AWARDS
YEAR ENDED AUGUST 31, 2024

- For all Federal programs, the District uses the fund types specified in Texas Education Agency's *Financial Accountability System Resource Guide*.
- **General Fund** - is used to account for among other things, resources related to the United States Department of Defense ROTC program and the United States Department of Education's Impact Aid.
- **Special Revenue Funds** - are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund. Generally, unused balances are returned to the grantor at the close of specified project periods.
- The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in a Special Revenue Fund or, in some instances, in the General Fund which are Governmental Fund type funds.

With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual basis of accounting is used in the Governmental Fund types. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on General Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources. Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as unearned revenues until earned.

- The period of performance for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 90 days beyond the federal project period ending date, in accordance with provisions in Section H, Period of Performance of Federal Funds, 3 CFR Section 200.343 (b).
- Assistance listing numbers for commodity assistance are the assistance listing numbers of the programs under which USDA donated the commodities.
- Indirect cost reimbursement for federal programs for this fiscal year was received in the amount of \$2,158,287.
- Reconciliation Information:

Amount reported on the Schedule of Expenditures of Federal awards	\$21,930,529
SHARS Revenue reported in the General Fund	641,680
QCSB Interest Subsidy reported in the Debt Service Fund	567,111
Federal Fuel Tax Rebates reported in the General Fund	<u>-</u>
Total Federal Program Revenue	<u>\$23,139,320</u>
