

Dear AP Chemistry Parent or Guardian,

It is AP Exam time! We have three full weeks of review and our exam is Friday, May 7th. Please make sure your child knows the exam schedule of their specific campus.

The first three weeks of this last grading period are all exam review. After the exam, expect to see a more relaxed version of your child. We will continue to learn new material related to real world chemistry through topics such as:

- Household Chemical Safety
- Acid-Base Chemistry and the Kinetics involved in self-care,
- Synthesis of Pharmaceuticals (major grade)
- Colligative Properties and Food Science,
- pH and Polarity in Fashion,
- College & Careers (two major grades),
- Organic Chemistry, and
- Nuclear Chemistry

I have thoroughly enjoyed teaching your child this year. I hope they can say that they also enjoyed being in AP Chemistry class, despite how challenging it can be at times. I thank you for your continued support even through your child's struggle.

Sincerely,
Eagle Mountain-Saginaw ISD AP Chemistry Teachers
