

EMS-ISD Staff— Did you know...

...in *OUR* district, we have special student athletes that need *YOU*?

You can volunteer to help, and only spend *an hour or less of time* each week. When some people think of the Special Olympics, they think of community service. What they often tend not to realize is how life changing the experience is. Volunteering to help with our student athletes is much more than helping them compete. It is an opportunity to experience pure joy, genuine enthusiasm, and personal achievement. Volunteering just one hour of your time each week will pay you back in a multitude of ways, many of which are priceless.

This is also an excellent opportunity for you to give back to our community, showing your *EMS pride*! By volunteering a mere hour per week for only nine weeks, you show support for our local student athletes and they, of course appreciate your willingness to do so.

Just Do It...for the athletes—the ones who are dedicated to their sport as much as any other athlete. Don't you want these children to feel appreciated and supported? Our practices and competitions give these athletes an opportunity to fit in, to be in an environment where they are just like everybody else.

It's as simple as that. What are you waiting for? Do it for the athletes!

- ❖ Can't find a babysitter? No worries! Bring your child, age 5 or older with you!
- ❖ We will begin to rotate volunteers, the more we add to our list, so that there is no need for every volunteer to attend every practice.
