The Videos will include messages from students, staff and EMS ISD administration. Instructions for submitting your message are included with this order form. **Deadline for video submission is June 3.**

Congratulations Class of 2020!

We will be including a video message section in the 2020 EMS ISD Graduation videos to allow you to share your thoughts with your classmates, parents and EMS ISD staff members. To be included in this section, please follow the tips and guidelines and send us your video by the deadline date of June 3.

Video Tips and Submission Instructions

- Capture your video in wide format – phone sideways. It might be helpful to have someone hold the phone.
- Record in a quiet environment. Playback your video before sending to be sure that you can be heard clearly and that there is no distracting background noise.
- Record in a well-lit area so that you are easily seen. Indoors with lights on, by a window (facing outside) or outdoors in a shaded area – avoid harsh shadows.
- Film from the waist up and be certain to keep the top of the head in the frame.
- **Keep it short.** Students messages should only be 5-7 seconds long – so write them down and practice before recording.
- Do not worry about editing your video. We will take care of that.
- **Keep it G-Rated.** Messages that are inappropriate for a general audience will not be used.
- **BE CREATIVE AND HAVE FUN!**
