

TOP 10

Things Parents Need to Know About
In-Person Learning beginning September 8th

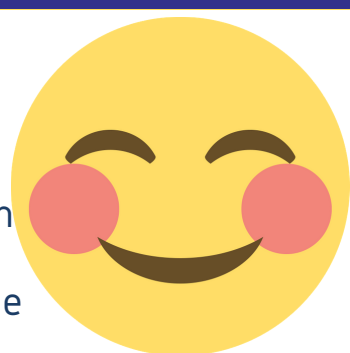

#10 CLASS SETUP

We are working hard to facilitate social distancing in classrooms by moving out extra furniture and removing items that would be difficult to clean. Students will have portable partitions at their desks which can be moved with them to various parts of the room and school.

#9 "KISS & DROP OFF"

Kiss & Drop Off is implemented from the first day of in person learning. Parents will kiss, hug and wave goodbye to their children from their vehicle or the front of the school. We are keeping our buildings as clean as possible and will have staff at every entrance to make sure all of our Eagles arrive safely to class.

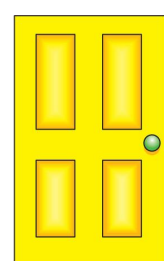

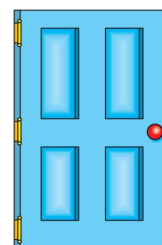

#8 MASK ZONE

All staff and students must wear face coverings in common areas in the building, in classrooms, and entering & exiting the buildings. Another way we are keeping everyone safe.

#7 MULTIPLE ENTRANCES

To minimize congestion, we have multiple doors open for entering and exiting the building. Dismissal will be staggered to help with congestion and social distancing.

#6 HANDS PLEASE

Upon entering any door in the morning our Eagles will be greeted by a staff member and provided hand sanitizer.

#5 LET'S EAT

Lunch is a great time for students to visit with each other and socialize. We have implemented social distancing at lunch by seating students farther apart at tables. This also means that parents are not allowed to have lunch with students at this time. Breakfast will be provided in a to-go bag that allows students to take to their classroom.

#4 RECESS PLEASE

We know that being outside and socializing with friends is important, so we are maintaining all recesses. Students will have recess with their classmates under the supervision of their teacher. Face coverings are not required when actively playing outside.

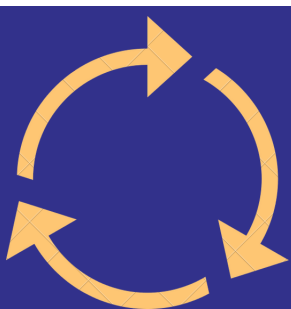

#3 KEEP IT CLEAN

To keep our buildings clean as possible, we are not allowing visitors at this time. As parents need to check out children early, please come directly to the front office and we will call your child.

#2 TEACHERS ON THE MOVE

Students will stay with their homeroom classroom if they are on a team (4th and 5th grade) the content teacher will come to them. This helps to minimize hallway traffic and prevents sharing desk with another student.

#1 OUR EME EAGLES

We have missed our Eagles!

We cannot wait to see your children!
