Course Description:

[EMS ISD Counseling Website](#)

This course includes thematic vocabulary and expanded grammar concepts in a cultural and contextualized environment. This course builds on the skills acquired in German I as students continue to develop speaking, listening, reading, and writing skills. This course prepares students for Advanced German III as students are introduced to AP writing and literature

Course Goals:

Students in Level 2 are expected to reach a Novice High – Intermediate Low Proficiency Level at completion of that level of study.

Novice High students express meaning in simple, predictable contexts through the use of learned and recombined phrases and short sentences. They are best able to understand sentence-length information within highly contextualized 2 situations and sources. Novice High students may generally be understood by sympathetic listeners and readers accustomed to dealing with language learners. Novice High students are consistently successful when performing Novice-level tasks. Novice High students show evidence of Intermediate Low proficiency but lack consistency.

Intermediate Low students express meaning in straightforward and personal contexts, by combining and recombining what they know, what they read, and what they hear in short statements and sentences. They are able to understand some information from simple connected statements in oral or written sources. Intermediate Low students are generally understood by sympathetic listeners and readers accustomed to dealing with language learners. Intermediate Low students are inconsistently successful when performing Intermediate-level tasks.
